### **SYMBOLS**

The following are the only symbols used for the purposes indicated below:

- (C) To signify a changed listing, rule or condition which may affect rates or charges.
- (D) To signify a decreased rate.
- (I) To signify a rate increase.

### **TARIFF FORMAT**

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the Tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4<sup>th</sup> revised Sheet 14 cancels the 3<sup>rd</sup> revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number of file with the Commission is not always the Tariff page in effect.

**TARIFF FORMAT (cont'd)**

- C. Paragraph Numbering Sequence - There are various levels of alphanumeric coding. Each level of coding is subservient to its next higher level. The following is an example of the numbering sequence suggested for use in tariffs.

2.1  
2.1.A.  
2.1.A.1.(a).  
2.1.A.1.(a).I.

- D. Check Sheets - When a tariff filing is made with the Commission, an undated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.
